<p>授業のねらい/授業方法(学習指導法)/授業到達目標</p> <p>授業のねらい: This course aims to improve students' proficiency in listening and speaking English with the use of skill-building activities and communicative approach. Students will learn to use appropriate language functions and structures in selected theme-based situations. Students will also learn to take notes and use graphic organizers to help organize their thoughts, and to enhance their listening and speaking abilities.</p> <p>授業方法: Vocabulary in context exercises will introduce new words related to the themes. Audiovisual materials will provide listening practice and expose students to authentic language used in real life situations. Various activities including the use of drills, role play, information gap etc. will be incorporated to encourage students to communicate with one another. Self-study tasks will be assigned to improve listening and speaking skills.</p> <p>授業到達目標: By the end of the course, students would be able to:</p> <ul style="list-style-type: none"> - demonstrate their understanding of dialogues and monologues presenting the target functions within the range of the themes covered by completing required activities; - express themselves by using correct language functions in different situations; - give a short presentation concerning a theme covered in class. 			
<p>授業内容(概要)/授業内容(毎週毎の授業内容を含む)</p> <p>授業内容(概要) The scope of the course includes essential pronunciation and stress patterns, listening and speaking strategies, dialogues and monologues presenting language functions and themes ranging from academic and social life to general health care and medication topics.
