授業のねらい/授業方法(学習指導法)/授業到達目標 授業のねらい: In an increasingly international community the skill of communicating in English is essential. English at University typically ranges from communicating with non-Japanese friends or teachers face to face or via E-mail to writing and presenting academic papers. As the key to developing most skills is the combination of "knowledge" and "practice," based on the course text (and text CD) plus some additional materials (handouts and a DVD - movie) students will be given the opportunity to further develop their communication skills through study and regular practice. 授業方法: The course will be based around the text (and text CD), plus some additional materials (handouts and a DVD - movie), this includes reading, writing and listening assignments, pair and group work/ discussion. 授業到達目標: After completing this course students should be more confident in communicating using authentic English.
